PROJECTS

Recruitment Drive Management System (mini project)

The aim of the project is to make it easier for students in college and employees to register. Users have easy access to this, and the data can be accessed quickly.

Inventory Management System (mini project)

This Inventory Management System gives you the ability to check on your products, add customers, manage suppliers, manage categories, manage order and you can also modify them and more.

College ERP Software Development-consultancy project

I work as part of a team that is in charge of designing responsive web pages.

INTERNSHIPS

Duration - 6 Months
Full Stack Developer Intern at Settyl Inc (On-Going)
